Gentlemen:

I would like to introduce myself as the Ritual Committee Chairman of a seven year old Congregation in Warren, New Jersey which recently purchased its own building.

Information has been given to me that your Temple has available TORAHS found in Czechoslovakia which survived the holocaust. If you are looking for a home for one of these TORAHS where it will receive the love and adoration it so richly deserves, we would be honored if you would consider us as a possible recipient.

Although we are not overly endowed, we would be only too delighted to pay the costs necessary for one of these TORAHS to be received by us. We will dedicate and enshrine such a holy object as a remembrance for all that such things as happened during the Hitler period must not and will not ever happen again.

Looking forward anxiously to a response from you.

Very truly yours,

Stanley D. Schultz
Ritual Committee Chairman
Mountain Jewish Community Center
